### **INSPIRATIONAL QUOTES OF THE WEEK**

*"One of the most important secrets of life that will be more contented is the act of gratitude and being grateful for the things you have in your life. It is so natural to get caught on the continually needing more prepare, that we don't stop to welcome the things that we have now."*

*— Adam Green, Greatest Life Lessons*

*"In the end, what's most important in life isn't going to be how much money you make, how many material things you acquire. . . It's going to be the way you guide the young people you bring into the world."*

*— Tony Dungy*

*"Passion drives us everyday , understand your passion, and understand what is that you want in your life because the moment you start doing what you love the most, you'll start celebrating the process."*

*— Razzab Shaikh, Right Steps For Success*

## Direct to You: From Stacey Gabriel

I am excited to introduce one of the newest additions to the United States Air Force, my step-son, Airman

Stacey Gabriel, CEO

Carter Hodson. His journey to get here has been a long and winding one. He made the decision in January of 2019 that he wanted to pursue this path. With the full support of his family he enlisted on August 1, 2019.

He was ready to leave for boot camp and wanted to do so as soon as possible. That date didn't come around until May 26, 2020. For a young, 20-year old, the wait felt like an eternity. Nothing about his initial military experience was what he thought it would be. From the delayed enlistment, to a delayed deployment to BMT (Basic Military Training) to the experience when he arrived in San Antonio, things have been "different."

He was quarantined for 14-days upon his arrival; their training was slightly modified in order to protect those on base, and sadly, none of us were allowed to travel to the base to participate in his coining and graduation ceremonies. In remembering Madison's

graduation several years ago, there was so much energy and excitement at those ceremonies. Thankfully, due to technology, we were able to watch his graduation via a live Facebook feed. Although exciting and emotional still, we wanted to be there for him when he walked out of that Pavilion.

This young man has been patient and has succeeded at all that he's done. He was just shy of expert marksmanship and scored a 99% on his physical fitness test. I have no doubts that Carter Hodson can accomplish anything he sets out to do. His determination and grit (a lot of which he learned from some pretty spectacular football coaches) is what helped him get through this "abnormal" military experience.

I think of how "abnormal" our world has been since March. Everything as we know it has changed. There is uncertainty as to when things will "go back to the way they were" and we don't know if that will ever happen. It's because of our continued "determination and grit" that we come to HVCH ready to tackle the day and make sure our patients continue to get the care they need. Those that work in health-care (regardless of your

## DIRECT

role) are a special group of people, and HVCH has the best of the best.

Carter continues to complete his training in San Antonio, TX. He is assigned to the 121st Security Forces at the Rickenbacker Air National Guard Base. We won't get to see him until the end of September. He will no doubt make an excellent Airman. He has the qualities and attributes that it takes in order to succeed in a role that so very few have the courage to do. Throughout everything, he has kept his chin up and kept his eye on the prize... and he did it. Congrats Airman Hodson. We love you!!

## HVCH COVID FAQs

*As the hospital continues to respond to the COVID-19 pandemic while resuming regular services, we wanted to provide a list of commonly asked questions our patients may have. We will provide questions and answers in this newsletter every week as well as post them on our social media channels. A full list can be found on our hospital coronavirus page at <https://www.hvch.org/hospitalnews/coronavirus-update/>.*

**15. Is visitation allowed?** We understand the importance of having friends and family included in the healing process. Early in our response efforts, we minimized the number of visitors a patient could have and then ultimately suspended all visitation to ensure patients and staff were protected from the possibility of contracting the virus. As we move through the continued response and recovery phases of the pandemic, we will monitor what best practices are being shared with regards to allowing visitation always keeping the focus on the health and safety of patients and staff.

**16. Are there enough PPE supplies to keep me and my family safe?** Hocking Valley Community Hospital monitors the amount of personal protective supplies that we have in stock. In addition to ordering from regular supply chains, we have received supplies from a national stockpile. We have also received generous donations of homemade masks from people both from and outside of the community, and we continue to accept these donations as we move through the next phase of this pandemic.

# 50/50 Golf Raffle

Drawing Monday, Aug. 17

## TICKETS ARE 6 FOR \$5

Winner receives 50% of the pot;  
Proceeds benefit HVCH Foundation

# HOCKING VALLEY Community Hospital

## OUR MISSION

*To provide our community an unparalleled patient experience through world class service that is both compassionate and professional.*

## OUR VISION

*To provide extraordinary care close to home now and into the future.*

HVCH is a critical-access hospital located in the city of Logan, Ohio, which serves residents in Hocking and surrounding counties. With more than 325 employees, our staff is here to serve the residents and visitors of our Hocking Valley community through various ancillary and emergency care services. HVCH is Joint Commission accredited, and we offer a wide range of primary, acute, and rehabilitative services. We are pleased to provide 24-hour emergency services to our patients through our ER and Urgent Care. Additionally, our surgical center, rehabilitation center, physical therapy clinic, pain control and wound clinic, imaging, laboratory, cardiovascular/cardiopulmonary, sleep clinic, geriatric psychiatric, and oncology services are also available. We are proud of our facility. HVCH is affiliated with OSUWMC, improving healthcare services to the Hocking and surrounding counties in the areas of general surgery and orthopaedics. HVCH also is a part of the Ohio State Health Network.
